specialty center

at Women's & Children's HOSPITAL

TLC from A-Z

A special place for specialized pediatric care.

Sometimes a Band-Aid™ just isn't enough.

The growing team of pediatric specialists at the Kids Specialty Center on the Women's & Children's Hospital campus and others close by are here to provide care right here at home—because we believe that children should be treated, not travelled.

Rest assured, Women's & Children's Hospital is home to the kids E.R., the only emergency department in the region with board-certified pediatricians on staff 24/7. The hospital is also home to Acadiana's only Pediatric ICU and the area's only Level III Regional Neonatal ICU. It's no wonder that Women's & Children's Hospital is the hospital other hospitals turn to.
